

# Brian Akamine's Recommendation List

## Tech YouTube Channels...

D-Lab Electronics: <https://youtube.com/c/dlab500>

Uncle Doug: <https://youtube.com/c/UncleDoug>

The Guitologist: <https://youtube.com/c/BradLinzyTheGuitologist>

Fazio Electric: <https://youtube.com/c/FazioElectric>

## Backing Track YouTube Channels...

Shoblues: <https://youtube.com/user/shoblues>

MCCD Sessions: <https://youtube.com/c/icebeatmaker>

Quist: <https://youtube.com/c/QuistTV>

## Amp Tech Websites...

Rob Robinette Amp Mods: [https://robobinette.com/Amp\\_Stuff.htm](https://robobinette.com/Amp_Stuff.htm)

Amp Troubleshooting: <http://www.geofex.com/>

Jack

Darr: [https://www.trinityamps.com/ForumGallery/trinity/resources/Jack\\_Darr\\_Handbook.pdf](https://www.trinityamps.com/ForumGallery/trinity/resources/Jack_Darr_Handbook.pdf)

(Skip Simmons' recommend book),

Good Amp Info: <http://www.valvewizard.co.uk/>

Tech Info: <https://www.aikenamps.com/index.php/technical-q-a>

Probably best amp tech stuff is the Jack Darr book, but all the links have good info. The backing track channels are good backing tracks... the mccd sessions is a good one for little Walter stuff, as is shoblues.
